SCAVENGER 40 AQUATIC LOADMASTER

The Scavenger 40 Aquatic Loadmaster is designed with a hydraulic crane for weed pulling and floating rubbish collection. With a long reach crane and a pulling force of up to 450kg, the boat is built as a standalone unit that can move to a selected location to pull underwater weed up to 2 meters. The large open deck allows the boat to carry up to 5000kg of rubbish / weed per trip.

Specialist Designer & Manufacturer of Aluminium Boats from 4m – 24m
Authorised Distributor for ISUZU and BETA Marine Engines (10hp to 720hp)
Marine & Commercial Engineering Design & Fabrication works,
Marine Outfittings, Class Approved Weldings
